

THE INTERN HUB

AT VIRGINIA TECH TRANSPORTATION INSTITUTE (VTTI)

Advancing research
that saves lives
and protects
the environment

WHO WE ARE

The Intern Hub is an interdisciplinary advanced-learning program at the Virginia Tech Transportation Institute (VTTI). Our goal is to accelerate practical skill development for students interested in transportation industry careers.

Supported by the Intern Hub, an elite pool of highly talented Virginia Tech students are hired by our Industry Partners (as interns) to work collaboratively with VTTI faculty on the development of next-generation transportation technologies.

OUR AREAS OF FOCUS

SKILLS

Our program enables the acceleration of practical skill development

STUDENTS

We transform student interns into transportation industry professionals

INDUSTRY

Our students and faculty address real, advanced R&D challenges faced by the industry

PIPELINE

We provide our industry partners with a sustained pipeline of talent to address their specific workforce needs

INDUSTRY PARTNER BENEFITS

Our industry partners get the unique opportunity to work with Virginia Tech sophomores, juniors, seniors, and graduate students—building relationships with their future workforce.

Our partners can expect:

- Industry quality project execution and deliverables
- A talent pipeline of high caliber students
- Cost savings in decreased recent graduate turnover
- Increased new-hire work efficiency

Our partners also receive wraparound VTTI support, including:

- Tech Development Garages and Shops
- Systems integration and prototyping
- Vehicle dynamics and simulation
- Injury biomechanics
- VT Institutional Review Board
- Proprietary Research
- Insurance and liability protection
- Research expertise in many related areas
- Test tracks and public test beds
- High performance computing infrastructure
- Industry and government collaboration opportunities

ABOUT VTTI

VTTI is a diverse, multidisciplinary research team that comprises the largest group of driving safety researchers in the world. With over 500 employees, VTTI continues to grow at an average of 10% per year. Our organization has been internationally recognized for collecting and analyzing real-world data, and using those findings to innovate and improve safety. OEMs know us for our confidential applied research that supports both engineering and design. Uninfluenced by corporate dollars, VTTI acts as a neutral third party to enable collaboration among competitors. Our wealth of resources allow us to develop novel technologies that lead to groundbreaking research. As such, we've become a close trusted partner of VA transportation and governor's offices.
