

DC I-CORPS/VIRGINIA TECH SHORT COURSE: SPRING 2021

COURSE INFORMATION

DC I-Corps, a National Science Foundation (NSF) supported program designed to foster, grow, and nurture an innovation ecosystem in the Mid-Atlantic Region, is **now enrolling for its Spring 2021 short course at Virginia Tech.**

Open to research teams and technology entrepreneurs, this **free** program is geared towards innovations coming from engineering fields, medical/health/life sciences, and physical and computer sciences. You may also be eligible for a \$50,000 grant from the NSF I-Corps program!

- Improve your chances for SBIR and grant funding, as well as early stage venture investment
- Work closely with real-world advisors that have startup, venture capital, and technology commercialization experience
- Come to a clear go or no-go decision regarding the commercial potential of your technology
